Montivillers 2 | 4,583 Sq. Ft.

The Montivillers 2 plan is organized around a central living core with a private owner's wing and a separate secondary bedroom corridor. A motor court approach enhances privacy, while direct access from the main living areas to the terrace and pool area supports indoor-outdoor living. Designed for how families live today, the layout balances entertaining space with retreat-oriented bedroom zoning.

BUILD CONSIDERATIONS

- Clean structural spans within main living core
- Efficient bedroom clustering for mechanical routing
- Garage configuration adaptable for depth or side-entry
- Terrace footprint scalable based on lot width
- Elevation materials easily tailored to market segment

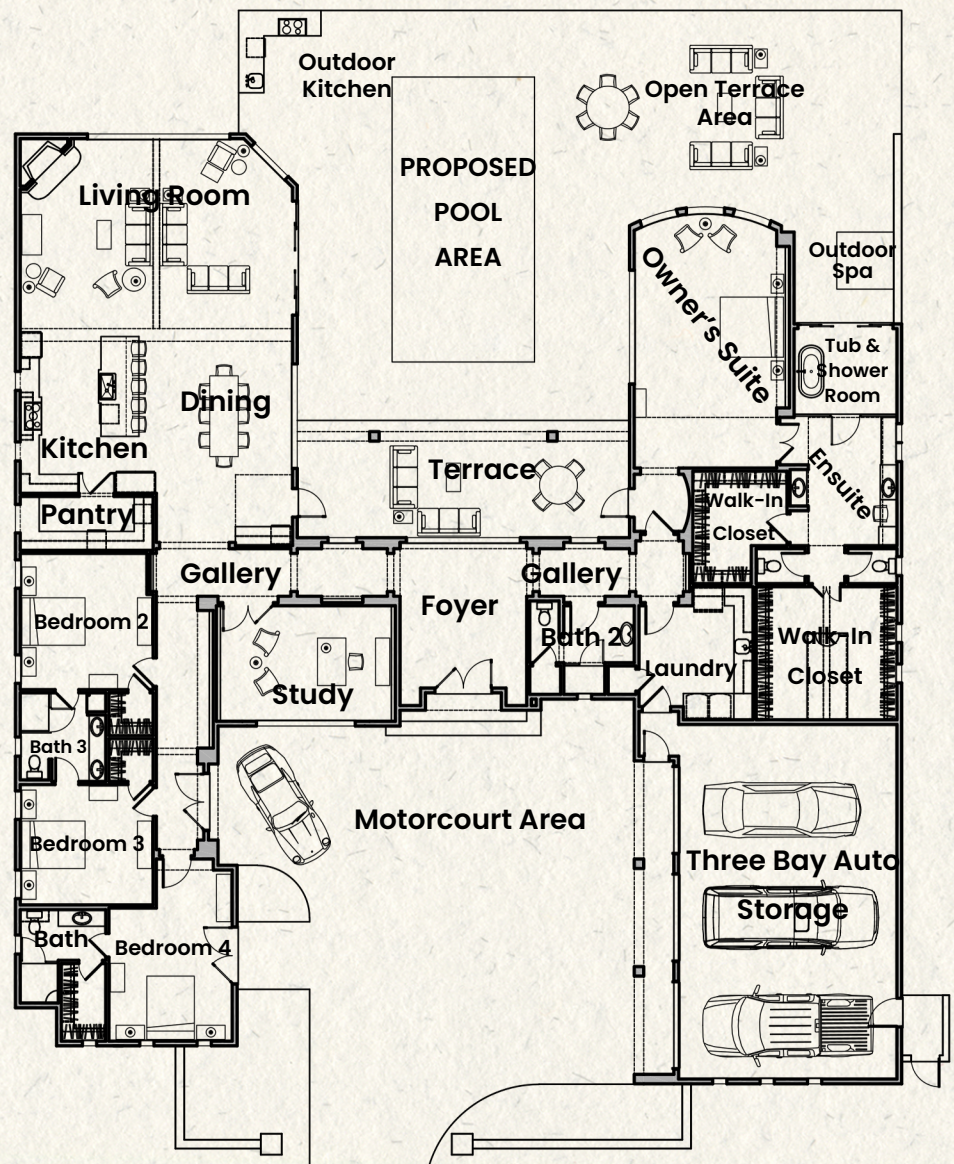

MARKET FIT

Well suited for:

- Texas Hill Country acreage
- Estate neighborhoods
- Move-up family communities
- Executive relocation buyers
