Zara 2 | 5372 Sq. Ft. Heated & Cooled

Modern Texas estate design centered on outdoor living, private retreats, and effortless everyday circulation.

The Zara plan organizes everyday living around a central entertaining core while maintaining a private owner's wing and separate guest zones.

Outdoor terraces extend the main living spaces, creating a natural connection between interior gathering areas and outdoor entertaining while preserving thoughtful privacy throughout the home.

Consider licensing this plan for your active lineup or adapting it to align with your current lot inventory.

Zara 2 | 5372 Sq. Ft.

The Zara plan balances entertainment and privacy through clear zoning and thoughtful circulation. The central living, kitchen, and dining spaces connect directly to outdoor terraces and an outdoor kitchen, creating an ideal environment for gatherings. A private owner's wing is separated from secondary bedrooms and a game room, while additional sleeping quarters offer flexibility for guests or extended family living.
